(A) One possible version:

Sydney is the largest city in Australia. It's located on Australia's east coast. Sydney enjoys a sunny climate all year round. Summers are warm to hot and winters are mild. You can always enjoy the great outdoors in Sydney. About four million people live in Sydney. It's an exciting place, which explains why it's popular with tourists who come here. Popular destinations include the Sydney Opera House, the Sydney Harbour Bridge and Darling Harbour.

(B) One possible version:

Energy is very important to this world. Nowadays more and more people realize the importance of energy saving. We may make choices every day to save the energy. I'll try to make one choice: use energy-saving bulbs. In fact, energy-saving bulbs have always been a bright idea for using our pocket money and protecting the environment. They use up to 80 percent less electricity than a standard bulb, but produce the same amount of light. And by saving energy, we'll help to fight against climate change, too.

Next time you need a bulb, buy an energy-saving one.

I'll probably go out with friends, though. In May there's Mother's Day on the 10th. That holiday will be on Sunday, so I won't get a day off from school. But my family always celebrate by taking Mom out for a nice dinner. Then, on June 15th, there's Father's Day. I'm not sure what my family will do that day. Maybe we'll have a BBQ in our backyard. And then, starting on July 6th, it'll be summer vacation. We'll go to visit my grandma in Australia during the summer vacation.
