书面表达(共二题,计 25 分)

(A) One possible version:

We have a new student in our class. Her name's Jane. She comes from America. She's 16 years old. She likes reading and listening to music. Her favourite subject is Chinese. She's kind, outgoing and helpful. She often helps me with my English. And I often help her with her Chinese. She's friendly to all the students, so we all love her and like to play with her. I think we can get on well with each other in the future.

(B) One possible version:

Reading is good for us

Many students only like playing games during the winter holiday, but I like reading. I think reading is good for us.

There are many advantages for reading. For example, while we're reading, we can know about the outside world, although we're at home. Reading can also bring us a lot of joy and happiness. So when I'm available, I'll go to the library or the bookshop to look for some interesting books to read.

Reading makes a full man! Let's start reading now.

Yesterday was March 12th and it was my grandmother's eightieth birthday. She's really old! We had a birthday party for her. All my uncles and aunts and cousins were at the party. There was a big cake with many candles on it. Grandmother tried to blow them all out, but she had to blow many times. Although she's very old, Grandmother is doing well. She can't hear very well, but her eyes are good. She's able to go out on her own and do her shopping. I hope I can live to be very old and have a large family. I also want to have a birthday party on my 80th birthday like my grandmother. She was so happy!
