书面表达(共二题,计 25 分)

(A) One possible version:

How to make friends with yourself

It's true that you're ordinary, but you're always a little different from others. You should learn how to make friends with yourself. Don't compare yourself with others all the time. Recognize and make a list of what you're good at. Concentrate on these skills and build your life around them. Learn to forgive yourself for the mistakes you make occasionally. After all, nobody is perfect and everybody makes mistakes, including you. Try to accept what you can't change, especially when you know you've tried your best.

(B) One possible version:

The Advantages and Disadvantages of Travelling by Train

Travelling by train has many advantages. For example, there are no traffic jams. The trains are fast and comfortable. You can use the time in different ways. You can just sit and read something, or you can enjoy the scenery out of the window. You can also have a meal in the dining car or go to sleep in the sleeping car.

However, travelling by train also has some disadvantages. Firstly, you have to start early in order to catch a train, but trains are sometimes delayed. Secondly, trains are often crowded with passengers. Lastly, trains can't take you from door to door. You still need a bus or a taxi to take you to or away from the railway station.

In a word, I prefer travelling by train. I feel more relaxed when I reach my destination.

Part III Passage

Please listen to the following passage, and fill in the blanks according to the passage you have heard with NO MORE THAN THREE WORDS. The passage will be read TWICE.

The McDonald brothers opened their hamburger restaurant in California in 1940, but after eight years, they had closed it down and re-opened it as a take-away restaurant. This was a place that offered food that was both cheap and of good quality. They also offered practically no service. For example, you lined up for your food, paid at the counter and took it to your own table or car. For this reason, the McDonald brothers were seen as the fathers of fast food. However, that wasn't the only fresh idea they came up with. They also brought in a new idea that workers in the kitchen each had their own job. In other words, they had one person cooking the hamburgers, while another person was doing the chips and so on. But in 1961 the brothers had enough of the hamburger business, so they sold the company for 2.7 million dollars along with the name. Today you can get a McDonald's hamburger in almost every country in the world.
